1. What Apex does

Apex builds, writes, runs and optimizes Facebook and Instagram ads for the Client, and sends every lead to the Client's phone or email as soon as it comes in. Apex does not launch or change any ad without the Client's approval of the first campaign.

2. Ad spend

The Client pays Meta directly with the Client's own card, at \$_____ **per day** (suggested \$20–\$50). The Client can pause or change the budget at any time. Apex never pays for or holds the Client's ad spend.

3. Free 30-day trial

Apex charges **no fee for the first 30 days**. At the end of the trial the Client can stop with no cost and keeps every lead.

4. After the trial (only if the Client continues)

- **Fee:** a flat \$_____ **per month**, billed at the start of each month. This fee does not depend on the Client's sales or revenue.
- **No financial reporting:** the Client never has to share revenue, job values, books or any other business numbers with Apex.
- **Invoicing:** Apex invoices monthly, and payment is due within 15 days. If the Client cancels, there is no fee for any month after the notice period ends.

5. Term and cancelling

Month to month. Either side can end it with written notice (text or email is fine). During the trial, notice takes effect immediately; after the trial, notice takes effect at the end of the current paid month.

6. Ownership

The Client owns the ad account, Facebook Page, pixel, ads and all leads. Apex has partner access only, and the Client can remove it at any time.

7. No guarantees

Apex will do its best work, but cannot guarantee a set number of leads or jobs. Results depend on the market, budget, offer and how fast leads are called back.
